Crops in the Province.

The Albertan and some one or two of the other papers to the south of Calgary, have during the past week made very fierce attacks on J. I. Poole, of Lacombe, for a communication of his which appeared in the Toronto Globe a few days ago. Mr. Poole made a few remarks about the weather and crop conditions in Alberta, and very truthfully remarked that the north or Central portion of the province was not suffering from dry weather and that our crops would be heavy. The Albertan accuses Mr. Poole of exaggerating the conditions in the south country, and says that the crops down there will be good in many cases, and fair throughout. Other Calgary citizens appear to think with Mr. Poole, of Lacombe. C. B. Dixon, a prominent citizen of Calgary, and a gentleman who travels a lot through the province, was in Lacombe this week. He said that it was quite exhilarating to get into the Lacombe district after a long sojourn in the south country. He said that the south country was so dry in parts that if you dumped a barrel of water on the ground it would evaporate before it could sink into the hard baked soil, and that crops were certainly ruined. Other travellers have the same story to tell.

In the Lacombe district for the past twenty years such a thing as a crop failure has been unknown. There has always been plenty of moisture. The farmers of this district bear ample evidence of this fact. In no portion of the Province can be found the same number of successful and wealthy farmers.

Central Alberta has always been a sore spot with some of the newspapers of the south. Together with the real estate men, a systematic attempt has been going on for years to knock this part of the province, and the Albertan knows this is a fact. The grand wheat country around Calgary and to the south was the only part of Alberta worth going to, according to these knucklers.

The conditions to the south of us are most unfortunate, but should impress intending settlers with the fact that central and northern Alberta are safe places to invest and build homes in. And we have an idea that if there is one part of Central Alberta better than another it is the Famous Lacombe District.

SMILING FIELDS AROUND LACOMBE.

Magnificent Crops in this Fertile District. Equally as Fine as Further North.

A staff correspondent of the Edmonton Bulletin took a trip through this District last week, and makes the following observations as to the good prospects here:

A hundred miles south of Edmonton the crop prospects are as bright as anywhere in Alberta, and at the present stage of growth as good as they have been in any past year. From the Blindman river and the Red Deer, north to the Saskatchewan, the country is as verdant and flourishing as the proverbial green bay tree.

The fields of Stony Plain, Riviere Qui Parle or Fort Saskatchewan bear no finer stands of grain than those of the Lacombe district, inspected on Wednesday by the Bulletin. There are splendid fields of oats which promise a yield of one hundred bushels to the acre, and the average for this grain can scarcely be less than sixty. Many fine fields of winter wheat look all of thirty-five bushels to the acre. Barley, which is everywhere a heavy yield, north, south, east and west, within a radius of many miles, crops are uniformly good.

Early in June, the first heavy rains visited the Lacombe district. There has been no lack of moisture since, and no fears for the crop have been entertained by the favored farmers. A precipitation for the month of June of three inches was recorded at the government experimental farm. In wet seasons the rainfall is much greater than this, as high a precipitation as eight inches having been recorded for June. There was a precipitation of one inch in May of this year. But the rainfall, though a minimum, has been evenly distributed, and only on a few of the lighter soils are the crops a little shorter than usual.

All grains are now fully headed out and filling fast. Without any more rain, the ground in most localities holds sufficient moisture to bring the crops to maturity. Some heavy fields would be the better for a few good showers, as the grain is ripening if anything a little too rapidly and requires a lot of moisture for filling.

Ahead of Last Year. The early spring and warm dry weather have placed the crops of the districts between two and three weeks ahead of last year. Cutting should be general in a little over a fortnight's time. The farmers are confident of a good yield and the orders already placed for binder twine with Lacombe merchants run well over the average of 25 pounds to the acre.

A drive of twenty-five miles through the country south of Lacombe to the Red Deer and Blindman river discloses magnificent fields of wheat, oats and barley. The wheat for the most part is fall wheat of the Red Fife and Preston varieties. Along the Canyon road, running south to the junction of the two rivers, east of Lacombe, are some of the finest fields of wheat and oats yet inspected by the Bulletin.

On the farm of Percy Switzer, three miles southeast of Lacombe, on the east side of the Canyon road, is a full stand of oats on breaking extending over one hundred acres which will probably yield close to one hundred bushels to the acre. The grain is tall and clean and excellently headed out. The crop is uniform over the entire field and a better looking stand of oats would be hard to imagine. Mr. Switzer has twenty-five acres in crop with fall wheat which he expects will yield thirty-five bushels to the acre. On his farm there is also a fine stand of barley covering many acres.

Splendid fields of oats and barley covering from fifty to one hundred acres are to be seen on either side of the Canyon road for a distance of seven miles south, on the farms of Henry Langrock, J. Hayden, A. Halsall, Harry McCall, George Storey, James Storey, and John Henderson.

Pleasant Valley, lying about twenty miles east of Lacombe, rivals Lacombe valley in its display of crops. From the summit of a high ridge fourteen miles east of the C. & E., a fine view is to be

had of this valley, stretching out for miles a panorama of cultivated fields, clothed with grain, alternating with green pasture land. It is well called Pleasant Valley, which presents such a pleasing sight.

On somewhat sandy soil, south of Blackfalds, there stands one of the finest fields of barley in the country. It is on the Pennington farm, adjoining the town, and covers about one hundred acres of rolling ground. This barley sea of grain is as deep as the fence posts which line the C. & E. trail, and stands thick and uniform with full fresh heads.

North of Blackfalds are several fine full stands of wheat. On the McKay farm, five miles south of Lacombe, there is a field which promises a forty-bushel yield. The grain is headed out at a height of about four feet. There is also a fine stand of spring wheat on this farm.

On the Rimbey farm, three miles south of Lacombe, and on the farm of Senator Talbot, a mile from the town, adjoining the experimental farm, are other excellent stands of fall wheat and oats. Three miles west of Lacombe on the Gull Lake trail, Jesse Fraser has a full stand of fall wheat covering about one hundred acres which is declared to be the equal of any field in the province. It may yield over forty bushels to the acre.

A fine field of fall wheat, thirty-five acres in extent, is also to be seen on the farm of Henry Bowen, two miles north of Lacombe, on the Edmonton trail. Other splendid grain fields are to be found on the farms of Peter Ballantine, Wm. McKee, Paycott Bros., Richard Relster, Thos. O'Shea, Thos. Stewart, and Messrs. Brown, Gatskill and Butcher. All these farms are within a radius of eight miles of Lacombe and carry from one to two hundred acres in crop.

On the farm of Jack Southward, four miles west of Lacombe, there is a quarter section in crop with wheat, oats and barley, which promises an unusually good yield. The farmers and merchants of the Lacombe district are thoroughly satisfied with the prospects of the coming harvest.

"The prospects on the whole were never better in the Lacombe district," said A. Urquhart, a prominent merchant of the town, to the Bulletin. Mr. Urquhart knows the farmers for miles around. He has been fifteen years in Lacombe, housekeeping in the district in 1895 and farming for several years. Farmers who come from forty and fifty miles west tell of promising conditions. "There is a greater acreage than last year and the average yield will be as good," is the way Mr. Urquhart sums up the situation. "Conditions were never better in ten years," is the pronouncement of the manager for one of the Lacombe banks, who prepares regular reports on the crops for his head office.

The grain test plots on the Lacombe Experimental Farm are in an ideal condition. Spring wheat has been raised with wonderful success. Plots were seeded with ten varieties at different dates. The same kind of grain was sown on March 30th, April 7, 14, 21 and 28. These five seedlings all look uniformly well. The varieties experimented with are: Pringle's Champion, Riga, an early wheat; Preston, Red Fife, White Fife, Marquis, Haron, Chelsea and Percy. The plots were seeded this year on an average from two to three weeks earlier than last year.

Twenty-eight different kinds of barley, two-rowed and three-rowed were planted in test plots and all have made a good showing. A field of Monseur barley, twelve acres in extent, will yield a splendid crop. This grain is being raised for distribution. The first cutting of alfalfa on the Experimental Farm was made on Tuesday. A field of Bromegrass is now falling before the mower.

The world's most successful chamberlain for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by all Dealers.

Sir Wilfrid Laurier will open the Regina fair on August 2nd.

GADSBY NEWS

FROM OUR SPECIAL CORRESPONDENT

Our new pastor, Mr. Johnson, is giving us excellent food for thought these Sunday nights and we predict a growing congregation as the direct result. His illustrations are of interest and to the point and he leads up to his point in good style. One could take quite a little lesson on civic patriotism from his last sermon and also a plea for toleration. Mr. Johnson also takes the bible class at 6:30 and more of our people might turn out to this service.

Our worthy Doctor has gone on holiday—but one that is expected to have results—and it is expected the new house will have its long looked for tenant when he comes back. We will give them a hearty welcome.

The picnic at Leo on Wednesday was a very successful affair. The gathering was much larger than anticipated and the weather was ideal.

Dr. Craig, of Calgary, is in charge of the practice of Dr. Chisholm, during the latter's absence.

The village council held their regular meeting on Tuesday evening next. Ratepayers are always welcome to the council meetings.

L. C. Dietzel, of Island Lake is enjoying a visit from his mother and brother of Michigan.

The magnificent new G. P. R. station is fast nearing completion, and will add much to the appearance of the town and the convenience of the public and the agent.

Chas. R. Haas returned to town this week after a year's absence. Mr. Haas, who is now settled near Salmon Arm, B. C., has disposed of his farm here to J. Hinkley.

J. J. Black, of the Trades Bank staff, is expected home from the east Monday. Upon his return Mr. Kelly will leave for the east to spend his vacation.

Peterson and some sick, across and it was feared that it was a case of glanders. But, like a good public spirited citizen as he is, reported the matter and an Inspector came down from Edmonton to investigate. It was a great relief to find that there was no glanders present, merely a passing sickness.

Our old friend Tommy Mitchell has "wandered back again" and he admits that Gadsby looks pretty good to him. Tommy was always a popular citizen and the boys gave him a cordial welcome.

A Kind of Mixed Farming That Does Not Pay.

That portion of Alberta lying north of Carstairs is known as the mixed farming country; but there is a variety of mixed farming to be found in every part of the province that is by no means as profitable as the genuine article when carried on in districts especially adapted to it. By this is meant that kind of farming that permits a splendid crop of winter wheat to be sown and a crop of oats by barley. Everywhere in Alberta this sort of thing to be found. We feel safe in saying that two-thirds of the wheat and half of the oats grown in Alberta have their market value impaired each year by from 1c to 2c per bushel, because the owners have adopted the wrong kind of mixed farming.

This results in the loss of a large amount of money which it is easily within the farmers' power to save. The seed fairs and institute meetings have done much to induce farmers to improve their methods, but like all efforts at improvement, progress is slow. The man who goes before an audience and declaims about the stealage of lime and terminal elevators is applauded and farmers rise in righteous wrath and demand relief, but he who calls attention to the stealage which results from weeds and the use of impure seed, for which the farmer is himself responsible, is able to arouse no such emotions. It is important that the farmers demand that the government afford them protection against fraud of all kinds. It is equally important that they exercise equal care to protect themselves. If people could only become as indignant over the losses they inflict upon

themselves as they do because of those inflicted by others, how quickly would their methods improve and losses fully equal to those complained of be prevented.

Farming of the Future.

Prior to ten years or so ago the energies of the leaders in agriculture were centred chiefly on the production of goods for the market. It is only within the last decade that serious consideration has been given to the improvement of conditions under which farm products are disposed of. Organized grain growers have asserted themselves, and Western Canada's staple crops are put on the market to much better advantage than they were a few years ago. Now those interested in the production of live stock bid fair to secure a remedy for grievances in connection with the disposal of cattle, sheep and hogs. The farmers have asserted their rights, and even corporations and governments have deemed it wise to accede to their wishes.

And now for the future. It has been demonstrated that years are required to work great changes. Agriculture is a big industry in which a heterogeneous people are engaged. It is necessary to proceed steadily, though perhaps slowly. This is the advancement that counts. All branches of agriculture are sufficiently organized to secure any demand that is sane and reasonable. It is the duty of the citizen farmer to ally himself with the organization or organizations that deserve his support, and to see that proper men are placed in offices of honor and trust and to ensure that only rational requests will be presented to those in power.

If the organized farmers measure up to possibilities a very few years will see the rank and file of this great class in the position that rightly is theirs. The agricultural industry is not primarily one of slavery. Intelligent attention to methods, a reasonable supply of labor-saving implements and business methods in buying and selling will place the farmer and his family in a position to enjoy themselves and take advantage of the true independence that their calling makes possible. Already many localities have their annual picnic; time is taken winter or summer to attend some interesting and uplifting function in town or city; members of the family are sent to school, college or university; communities have their athletic organizations; individual farmers have tennis or croquet grounds. Any, or perhaps all, of these can be abused; but if intelligence and common sense are applied the whole neighborhood is benefited.

Why Farming Requires System.

Calculating on the basis of the original value of his land, the farmer is making money. Calculated on the current market price at which he could withdraw his investment and put it in interest-bearing industrial securities, he is losing money every time the seasons revolve. In many sections of the country farm values have doubled, even tripled, in the last generation. Land that has been worked on the basis of calculation of from \$5 to \$20 an acre, must in the future respond to acreage values of from \$75 to \$200. The old generation, with its obsolete methods, which has persisted solely on the excuse of cheap land—or gift land—must give way before the new generation. The new owner, the man who would establish himself as a farmer today, has to meet the changed conditions, and it is to these conditions that the business of farming must respond. The question of fixed capital has come to stay. We are not yet out of our first generation as farmers on a grand scale. This first generation is taking its hand from the plow, and those who follow the pioneers either through deed of sale or probate, must hereafter reckon interest on investment as an actual item of cost. Farming as an industry is in its transitional stage, and it is to meet the new conditions in a businesslike way that experts have been giving their attention to the question of devising a system of cost accounting for the farmer.

Lacombe Fall Fair, Sept. 29 and 30.

FARM AND TOWN

PROPERTY FOR SALE.

I have listed for sale a number of properties, among which are: An improved quarter section, good buildings, fences, six miles from town, 30 acres broken, for \$15 an acre. An improved quarter section, fenced, fair buildings, 18 acres under cultivation, eight miles from town, \$14 per acre. Half cash. A good dairy farm, half section, well watered, some wood, 70 acres under cultivation, \$15 per acre. Terms to suit purchaser.

An improved half section, 50 acres broken, fair buildings, all fenced, no waste land, 12 miles from town, \$10 per acre. \$2000 cash, balance on mortgage. Several quarters of raw land at from \$8.00 to \$12.00 per acre. A number of good grain and dairy farms at right prices. Village property for rent, sale or exchange.

JAMES MCINTOSH, Blackfalds.

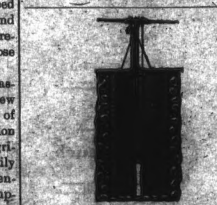

Money to Loan at Reduced Rates

The B. C. Permanent Loan Co. have reduced their rate of interest and parties wishing to obtain loans on the monthly payment plan, on Private Dwellings can now obtain very satisfactory loans from this Company. Loans in this Company can be paid off at any time by giving 60 days notice without any bonus.

The Colonial Investment & Loan Co. have also reduced their rate of interest, and loans can be obtained on either Private Dwellings or Mercantile Buildings by monthly payments or by half yearly payments.

Loans on Farm property at lowest rates, either by Company or Private funds. A number of desirable houses for sale or to rent.

Frost & Wood No. 3 Binder

Has a Strong "Back Bone"

The Frost & Wood No. 3 Binder is built to stand more hard knocks than a binder is commonly supposed to encounter. Striking a holder or bumping over rough ground does not affect this binder. That's because the binder's back bone consists of heavy pieces of steel firmly riveted together and because the platform is connected to the main power frame by a double steel brace. It's the quality in material and workmanship that the makers put into the Frost & Wood No. 3 Binder that enables it to give three to five times as many years of service as ordinary binders.

We would like the privilege of showing you the construction of this binder. Then you can be your own judge as to its strength. We would also like to point out to you the Advantage of the Economic sprocket wheel, which is found on no other binder. This Economic sprocket wheel makes a more compact, easier-to-shock bundle and discharges them faster than ordinary binders. We also wish you to see the No. 3 Knotter, which never hesitates an instant, no matter how hard and fast you feed it to work.

BARNETT AVENUE LACOMBE RAILWAY STREET

Market Report

Oats are liable to go higher
than we at one time anticipated.
Our home market to the south
will likely take all that Northern
Alberta produces this year, and
our prices will not be strictly
governed by Winnipeg and the
export demand.

THE CELEBRATION A GRAND SUCCESS

The Sports Were Good and a Large Crowd in Attendance.

The best sports ever held in Lacombe, or for that matter, in any other town in Alberta, was the general opinion of the thousands who came into our celebration yesterday.

The weather in the morning looked threatening, and this fact kept many from coming out, but the afternoon turned out fine, and all who put in an appearance got the full worth of their money.

The horse races were the best ever held here, every entry going right after the money. There were none of "fixed" races on the program.

The ball games were the great events of the day. The game between Alx and Red Deer well repaid every lover of the game for the trouble and expense of coming to the sports. It was high class ball, such as one would see in the big leagues. Both teams were evenly matched and at the end of the ninth innings Alx had one score to Red Deer's 0, and of course took the money.

Gull Lake and Fairview were the first teams in the tourney, and in a good game Fairview won with a score of 7 to 1.

Then Lamerton and Blackfalds went to bat, and the result was a victory for Lamerton.

In the final, Lamerton and

Fairview went at it hard, Fairview winning a hard earned victory.

The ball diamond was not in good shape, and good ball was hardly to be expected, but every one was well satisfied.

The sports and other races were well contested, some of the fastest runners in Alberta being among the entries.

The tug of war was very exciting, and resulted in Lacombe winning from the strong men from Stettler after a strenuous pull.

The bucking contest and Indian races were features of interest to all, and created much excitement.

Two or three real old breakers were on the grounds, and Hudson Hunt and Tom Gravelly earned their prizes.

The Lacombe Band and a pipe-furnished the music for the afternoon, and their selections were greatly enjoyed.

We do not want to throw any bouquets, but we will say that the management of the sports this year was good, and there were no long tedious waits between items.

The citizens who so kindly contributed funds for the sports have the thanks of the management, and to them is due the happy fact that it was possible to pay all prize money at the close of the day's entertainment.

Val Adams was married to Miss Johnson of Canyon on the 16th.

Mrs. A. Finks has purchased the Meadows quarter on sec. 20, Will Connell now owns the Bob Orris homestead. C. R. Denike has purchased John Patton's half section. Isaac Melvin has recently bought a half section on 1 near Canyon P. O.

BENTLEY

Some half visited our valley on Sunday, coming in from Calkins Valley, and passing near Fosshee. We haven't as yet heard the amount of the damage. This was our first hailstorm of the season.

C. P. Damsen conducted a very successful sale out at Wittenberg last Thursday.

Dr. Evans is very busy these days.

The B. W. Williams and Jas. McPherson families, Guy Palmer and W. Lohman, spent Sunday at the McPherson Camp.

Although the weather was unfavorable, quite a crowd gathered for the "Old Barn Dance" at D. B. Palmer's last Friday night.

NEWS OF THE TOWN

For supplying liquor to a minor named Porter, B. V. Palfrey was fined \$15.00 and costs on Monday by John Rose, J. P. It is understood that there are other minors in town getting liquor in the same illegitimate way, and prosecution to the full extent of the law is promised others who do not refrain from obtaining it.

Mr. N. I. McDermid, now of Calgary, was a town visitor yesterday.

Mr. Henry Langrock of Lake-side, caught a large fish in Gull Lake last Thursday evening on the west side of the lake near sucker ditch. It was a pike which measured 42 inches in length and weighed 184 pounds.

The Pekin Theatre is having a benefit night for Mr. Geo. Hardy, the unfortunate man who had both limbs broken two weeks ago, in a railway accident. The benefit will be held tomorrow (Thursday) evening.

The Annual District Sunday School picnic, held at Henry's Lake last Thursday proved a grand success. Five hundred people were present and a most delightful day was spent. Splendid addresses were delivered by Rev. T. Smith, Morningside, Rev. M. White, Lacombe, and Rev. Thos. Powell, Lacombe.

Mr. and Mrs. H. A. Day returned on Saturday night, from a two months' trip to Ontario and other points.

Oats Go Away Up.

The farmer seems to be always standing before an imaginary elevator. When he needs the cash and wants to market his grain the elevator is going down and when the elevator takes a turn and is on the way to the top storey he frequently finds that he has disposed of his produce and has no more to offer.

This year has been an exception to the rule. Oats at 18 and 20 cents per bushel, as they were for months, had no attraction for the farmer. Rather than sell he would hold and if necessary keep his grain for winter feeding. Now he sees the wisdom of this in the sensational rise in the oat market. This week oats have gone up 25c per bushel. Buyers are scouring the country to get oats at 40 cents per bushel but they can resell at 50 cents at many points. Many farmers in this district have several thousand bushels of oats in the granaries which can be turned into cash as soon as they are ready. One farmer in fact is reported to have 27,000 bushels which he has held through the period of depression. Now the question is whether to sell or hold for still higher price.

The cause of the upward trend is the crop scare in the States and in many parts of western Canada. In many districts there will be no crop to harvest as the fields are as dry and bare as in the month of November. The world needs grain to carry it over until another harvest even if it takes every kernel in the country to do it. Hence the unfortunate farmer is not so much the one who has a crop failure but the one who has not carried over a full granary from the record crop of last year.

What can be said of the far-

mer's opportunity in the grain market holds good for other farm products. Hay, for instance, who has, will be weighed on an apothecary's scales before another harvest season. Hay was plentiful last year and farmers as a rule have some quantity in stock. Every advantage will be taken of what this year will give.

We Must Tell Our Own Story.

Ottawa, July 18.—George H. Bradbury, M.P., for Selkirk, Man., who is in the city en route to Europe, says that the conditions of the crops in the three prairie provinces generally is serious. He believes that the total yield will only be about one hundred million bushels, or an average of about eight or nine bushels to the acre.

This dispatch fairly summarizes the misconception from which Central Alberta has most to fear this season, and to correct which no effort should be spared. From his knowledge of the conditions which exist in his own little corner of the West the member for Selkirk undertakes to say what conditions prevail generally, and that these are similar to the conditions which exist in Selkirk.

The "generally" of Mr. Bradbury does not apply to Central Alberta. That is the fact which must be kept to the front unless the statements of misinformed and un-informed parties are to be taken as correct by those who have no means of knowing different, and this part of the country made to suffer for a condition of things which does not exist here, which, in fact, is the exact reverse of what does exist. So far from being "serious" crops in Central Alberta are splendid. In fact if they—and the crops in some other sections of the country—were not splendid, the member for Selkirk would not be able to prophesy a total yield of 100 million bushels for the West and an average crop of 8 or 9 bushels per acre the country over. It is Central Alberta which is saving the situation for the western country this year. For that service they are getting anything but the credit due them from some parties who owe them most. If we get the justice of a correct representation of its conditions before the outside world it will be through the efforts of our people and those whom they may be able to enlist in their cause. The districts whose low yields will be the less noticeable in the total records of the year because Central Alberta crops are excellent, do not seem to be at all anxious to do us the justice of making the fact known.

Dr. David O. Hudson, of Montgomery City, Mo., has stirred the medical world and made a sensation by advocating the doctrine of exterminating all fillets in the almshouses throughout the land, in replying to critics, he says: "I do not go so far as to recommend condemning to death the aged, but I see no reason why this class of insane people after being passed upon by a properly constituted commission, should not usefully be put to sleep, for ever. The class I refer to are bereft of all human instinct, mere animals. I do not do this for macabre purposes, nor to relieve society of its responsibilities, but purely as a mercy to this class of sufferers."

Kansas City.—Because of an article by Theo Roosevelt, the last issue of the Outlook, a monthly magazine, has been barred from sale in Hutchinson, Kansas. An ordinance was recently passed barring prize fight pictures, newspapers containing stories of prize fights, and magazines, books or pamphlets containing such matter. Because of comment by Mr. Roosevelt on the Reno prize fight the Outlook was barred from sale.

Owing to the great scarcity of railway laborers, it has been decided to admit to Canada from all countries except Asia, railway construction laborers who are mentally, morally and physically fit, willing to work, and who are guaranteed employment by railway contractors, irrespective of money qualifications, or direct journey.

The C. P. R. has entered suit against C. N. R. for damages to the extent of \$25,000 for alleged injury done to C. P. R. property during the construction of the branch line of the Canadian Northern towards Calgary.

A. C. JOHNSTONE
CLIVE ALBERTA

Establishing a Meat Export Trade.

The Board of Trade of Western Canada have in the past been inclined to take a somewhat narrow and restricted view of their functions, their vision has been confined too much by the boundaries of their respective cities, and consequently many matters of immense and pressing importance to the country as a whole, and in which they could render valuable aid, have been largely neglected.

An showing, however, that there is a healthy tendency to take a broader and more comprehensive view of subjects of great national significance, a resolution is appended which has been unanimously passed by the Council of the Edmonton board of trade, for presentation to Sir Wilfrid Laurier when in this city, and which no doubt will spur other boards throughout the west to take somewhat similar action with regard to this momentous and far-reaching question.

The resolution, which deals with the matter in a very clear, concise, and unmistakable manner, reads as follows:

Whereas, The real and enduring progress and prosperity of every city, town and village throughout the whole west is inextricably bound up with the success of agriculture.

And Whereas, The continuous cropping of our lands, and the putting of nothing back, must eventually end in the impoverishing of our soil, and thus rob the country of one of its principal and most valuable assets.

And Whereas, The production and fattening of meat animals holds the same important relationship to true and permanent agriculture as agriculture does to the future advancement and well-being of the whole Dominion.

And Whereas, The lack of steady and profitable export market is largely responsible for the deplorable condition of the live stock industry in the west and is the principal reason the farmers are devoting practically the whole of their time and energy to the production of grain for export.

And Whereas, Progress in the live stock business is under present conditions out of the question, and no material advancement it will be made until such time as it is clear to the farmers that it will be well worth their while to grow and fatten more stock.

And Whereas, This most desirable state of affairs can only be brought about by providing the farmer with a stable and remunerative outlet for his meat animals.

And Whereas, To obtain the necessary market stability, it is imperative that a modern, scientific, and up-to-date system of meat

exporting be established, on a sound, business-like, and permanent foundation.

And Whereas, To be productive of the greatest possible good to the country as a whole, it is essential the Federal Government control this important industry from its very commencement.

And Whereas, The inauguration of this weighty and far-reaching industry is the only practical method of giving the required co-operation to produce and finish stock, and its inception would encourage the production of all kinds of meat animals to an extent few realize this western country is capable of.

Be it resolved, The Council of the Edmonton Board of Trade, do hereby petition the Federal Government to take this matter up and render the necessary assistance towards establishing the industry with all possible speed.

Spring Valley.

School opens on Monday, August 1.

Miss F. Smith is spending her vacation at Edmonton.

W. A. Roe of Halkirk and Edmonton was looking after his property here last week.

Cummings' steam outfit is breaking up the old Kilby place now owned by Miss Moore of Cleveland, Ohio.

Wat Keith was thrown off a disc harrow and was badly battered up.

J. R. Donnemorth had a well drilled on "Breezy Heights" and struck a magnificent stream at a depth of 112 feet.

Lon Harrison and Art Thomson of Halkirk were here on business last week.

Crops are good but not equal to last year's.

Full wheat which was considered almost a failure in the spring will average about 25 bushels per acre.

Spring wheat is good but rather thin on the ground.

Several fields of oats promise a yield of 100 bushels per acre, but the average will be much less.

Tame hay is almost a total failure.

Corn, potatoes, and roots are looking thrifty.

Vint Keith, of Stettler, is visiting at the paternal home.

W. H. Wilkie was plaintiff in two cases tried recently before Judge Lees, and lost both. Better quit courting.

Last Sunday a hail storm passed over a scope of country about a mile north of the school house doing considerable damage.

A O. N. R. survey party is at present running preliminary surveys along the upper end of Jones Valley.

THREE things to remember in buying silk gloves:

1. Pure silk wears best as well as looks best.
2. Cheap dye injures the fabric, lessens the wear.
3. Get as good a fit in silk as you do in glove or suede. It is just as important.

BUT if you are careful to get

FOWNES GLOVES

you can forget all these things, because "If it's Fownes, that's all you need to know about a glove."

For one hundred and thirty-one years, one ambition, one accomplishment: to make the best gloves in the world for Men, Women and Children.

Never sold under any other name than Fownes.

Happy Home
for roof and gutters. Give them a try. They will be glad to do it. And they will be glad to do it. And they will be glad to do it.

Rex Stintz ROOFING

As a roof is a building's most important part, it should be made of the best material and by the best workmen. Rex Stintz Roofing Co. is the only company in the West that can guarantee a perfect roof for 10 years.

Send for Free Samples

and see how our roof is made. It is the only roof in the West that can guarantee a perfect roof for 10 years.

PONKA LAND CO. Ponoka

Of Local Interest.

The Methodist denomination has been successful in establishing a college in Calgary. A staff of teachers and professors will be engaged as soon as possible. Pending the erection of the building, the classes will be held on Eighth Ave. The new college site has not yet been decided upon, but several choice locations have been offered free.

How comparatively easy it is for the man who has no investment in the municipality, or who is trying hard to free himself from what investment he has made, to criticize those connected with the business affairs of the town? A little less "chewing of the rag" and more practical work would not only be more for the general advancement.

Next spring the country between Canisteo and Watouski, which is known as become district No. 2, will have a local option vote. The announcement was made by Rev. Mr. Fortane, secretary of the temperance and moral reform movement in Alberta—Calgary Herald.

A Conservative caucus will be held in Edmonton during the fair, August 23 to 25. After the caucus is held a convention will be called and a leader will be chosen for the party in the province.

Rev. A. J. Parsons is the new resident pastor of St. Cyprian's, having decided to accept the charge. He will hold his first service here on the third Sunday, in August, and after that date the services will be held regularly in the church.

On Thursday, 14th inst., C. E. Pleasants, of Iowa, appeared before J. W. Donovan, J. P., on a charge of allowing a price fire to pass from off his land on or about September 9th, 1909. J. A. Jackson, B. A., Barrister, of Ponoka, appeared for the defendant, while the interests of the prosecution were looked after by Donald McEachern, Provincial Fire Guardian. Poor witnesses, namely, John Schureger, H. Schureger, Mrs. D. J. Johnson and D. Chief, were heard, but as it was not proven that the fire on Mr. Pleasants' place was the fire that ran at large, the case was dismissed without costs.

Seattle, 22—Orders for thousands of barrels of flour are pouring into coast flour mills at Puget Sound from the Orient, marking a revival of business that has been at a standstill for several years.

A Catholic school to cost \$60,000 will be erected at Strathcona. The building will have 32 ft. frontage with a wing 28x58 ft.

There are 3,000 post offices between the Great Lakes and the Rocky mountains. Fifteen years ago there were not eight hundred.

The density of population in the German Empire is 309 to the square mile. What that means may be grasped by considering that if the United States were as thickly populated as Germany, it would have 900,000,000 people—ten times the present population.

Funds amounting to more than \$400,000 have disappeared from the assets of the Pillsbury-Washburn Flour Co., of the United States, owned mostly by English investors, owing to the issuing of improper notes, debts uncollected and worthless bills receivable.

Mr. and Mrs. H. Switzer, of Rennoch, Ont., are visiting with their son, Mr. P. A. Switzer, who resides three miles south-east of town.

The town of Fort Saskatchewan has passed a bylaw authorizing debentures to the amount of \$34,000 to construct a water power plant on the Sturgeon river. The plant will generate electricity for the use of the town.

Suggesting that the Dominion government relax the homestead and pre-emption regulations for a year, or until the homesteaders who have suffered in Southern Alberta this year from the loss of their crops owing to the continued dry season have success, C. A. Magrath, M.P., for Macleod, has written J. W. Greenaway, Commissioner of Dominion lands. He asks that the government suspend the payment of interest on pre-emptions and that arrangements be made so that no cancellations of homesteads can be made in the affected districts until after March 1, 1911. The object of this is to

enable the homesteaders to leave their places to go to work on the irrigation or railroad gangs.

Don. P. Talbot is named on Sunday from Winnipeg.

The Seventh Day Adventists have just closed a very successful conference. During the past two weeks they have had very large crowds in attendance, and they have met favor from the weather which has been ideal. Their efforts have been crowned with much success, many conversions were made.

Mr. George Drader of Wisconsin was fined \$5.00 and costs in Justice of the Peace, John Ross' court on Monday evening for taking down a fence and trespassing on the farm of J. H. Ross.

Mr. G. H. Hutton, of the Dominion Experimental Farm, Lacombe has returned from a trip to Western Experimental farms and Eastern Canada.

The dance in Day's Hall last evening under the auspices of the M. W. of A. was attended by upwards of eighty couples and a most enjoyable evening was spent. Messrs. Bode Bros., Gottschlich and Gainer supplied excellent music.

The benefit night for Mr. George Hardy at the Pekin theatre, tonight, July 28th. Do not forget it.

Under the auspices of the M. W. of A. citizens were given a lecture on fraternity last Saturday evening in the Pekin theatre. Lecturer Davis was unable to attend and Provincial Deputy Head Counsel Grant supplied. A large audience greatly appreciated Mr. Grant's discourse.

Excavation for the new theatre building was commenced this morning and the brick are already on the ground for the theatre's construction. The old theatre building will be torn down the first of next week, and while the new building is under construction, the management has arranged to continue the performances in the Mobley Block, next to Mrs. Mobley's millinery store.

Mr. and Mrs. E. W. Towler will be at home to their friends on Thursday, August 4th, from 4 to 6 p.m., and 8 to 9 p.m.

Wanted to sell hay (about, upland) for taxes, on Jones Place west side of shore, Gull Lake, 318 acres in 41.42. For particulars see Jobe S. Jones, Nanton, St. Lacombe.

Mr. E. O. Windsor, piano tuner, will visit Lacombe in a few days. Orders will be received at The Globe Office.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisons, cure constipation and sick headache. Sold by all Dealers.

Toronto, July 22—There are a number of important issues to come before the general conference of the Methodist church which meets in Victoria, B. C., next month. Among them will be the selection of a successor to Dr. Sutcliffe, who was secretary of the foreign mission department.

There is a general feeling, especially among ministers, it is said, that the foreign and home mission departments should be amalgamated and under one head as was the system previous to the Montreal conference eight years ago. To dispense with the publication of the Wesleyan at Halifax and join its forces with those of the Guardian may also be decided upon. It is quite probable an associate editor will be appointed whose duties will be to cover the western provinces. Church union will be discussed at length after which the question will be submitted to all quarterly boards.

Their reports will be received next year and should the vote be in favor of church union a special general conference will be called in 1912 to finally adopt some measure to that end.

Wanted to rent for one month, a motor boat to be used on Gull Lake. If price is reasonable would buy. Address O. E. Tryon, Capital Printing Co., Saskatoon, stating terms.

BORN.

HAMPSON—At Lacombe, on July 22, to Mr. and Mrs. James Hampson, Greenwood, B. C., a daughter.

SKINNER—At Blackfalds, on July 22, to Mr. and Mrs. David Skinner, a son.

What's Ahead.

The situation of the United States is now too good. Something is impending. High finance and Wall St. methods have resulted in millions of shares in over-capitalized railway and industrial companies being loaded on the banks, trust companies and other loaning institutions and individuals; and after years and months spent by these concerns to get the investing public, home and foreign, to come in and buy these watered stocks, it is at last to be admitted that it cannot be done. They were once sold to the home buyer and to the foreigner; the latter sold them back to Americans at a profit; the original American buyer and the new American buyer (from the foreigner) borrowed money from the loaning concerns "to carry them." This did for a while, but eventually the loaning concerns had to take them over outright. And that is where they are today and it would seem that they will remain there.

They cannot be worked off, unless a wonderful revival in business takes place, unless a bumper crop is reaped, unless immense sums of fresh borrowed money is brought into the States. None of these things are in sight. The foreigner will not lend money until high finance and Wall street methods are ended for good.

The legislation passed by Roosevelt and by Taft, so far as has only touched the fringe. The public are to be protected from unfair railway charges, from the trusts and from enhancement of prices. But nothing is yet in sight in regard to the awful pall of inflated or worthless stocks. The only thing that can be done is revolution and this the public or the financial institutions must do themselves.

Will they do it? Is that what is impending? Or will a short sharp panic force it?

Our own belief, after watching things in the States for years is that revolution must and will take place, honest methods must and will take the place of high finance; and that when these two things are done the United States will get a new lease of credit, millions and millions will flow into the country and the greatest era of industrial development known to the United States will set in. But the other thing must be done first. The question is who is to do it, how is it to be done, who is to sustain the terrible shock involved?

But this whole situation of the States is of comparatively small moment to ourselves. It means cheap American goods in Canada if we care to buy them. But if the shock were over it would mean great business all round. The energy of the United States cannot be held back for long—Toronto Globe.

Morningside.

Since last writing the ice cream social given by the ladies of the church has passed into history. The weather was ideal, the refreshments of good quality and abundant, the programme excellent, the attendance good and the proceeds fair but the baseball match—

Rev. W. D. Reid, Supt. of Presbyterian Missions for Alberta was a caller at the Manse last week en route to the Meadowbrook mission field. He reports well of the field visited which is in charge of Mr. McCullie, student.

The Union Sunday School picnic at Henry's Lake on the 21st was very well patronized. Those who went from here report very favorably of their outing.

The neighborhood Sunday School convention was held in the Fairview church on Friday p.m. It was well attended by a deeply interested audience. Mrs. Hench and Mr. W. V. Sinclair were the speakers that came from headquarters; they made the meeting pleasant and profitable for all.

Mr. Harrower, produce merchant of Vancouver, made a business call here on Thursday. He brought all the surplus output of the creamery at the highest market price. He expressed himself as highly pleased with previous shipments as the quality of the goods sent was very superior. The secretary-treasurer of the Creamery Co. informs us that last month three patrons drew for their

months cream \$102.00, \$97.00 and \$92.00 respectively.

Mr. W. C. Houston lately returned from his homestead near the eastern boundary of the province, reports short crops through want of rain.

Mrs. J. G. Friesell of Lacombe was a visitor to the parental home last week.

Mr. Ernest McGregor, of Owen Sound, Ontario, is a visitor at The Manse.

There was a slight hail storm on Sunday which did considerable damage to Mr. Leslie Thompson's crop. Mr. J. R. Ledgale also suffered from it.

Except the hay, the crops in the surrounding country are very promising.

A goodly number from here attended the Lacombe holiday sports on Tuesday.

See Bailey

1 democrat, \$25.00.
1 road cart, \$10.00.
1 gang plow, \$20.00.
1 sulky 18-inch plow, \$30.00.

GULL LAKE VISITORS NUMBER HUNDREDS.

Tourists from all Over the West
Are Holidaying at This
Resort.

Gull Lake is booming this year, and the visitors continue to flock to this popular resort in increasing numbers. Scarcely a day passes without from two to dozen new arrivals joining the happy multitude at Lacombe's summer resort. Building has been brisk this summer, and scores of cottages have been built or are at present under construction. To give an idea of the number at present in residence at the lake, we took a census this week. We have tried to get all who are on the beach, but there are a number camped several miles from the main centre which we were unable to reach. Following is a list of those we were able to interview:

Dr. and Mrs. Sloane and family, Mrs. McIntyre, Miss Jean Aitken, and Misses Richardson, Edmonton.
Mr. and Mrs. H. M. Trimble and family, Lacombe.
Mr. and Mrs. S. H. Smith and family, Mr. and Mrs. Whitehead and family, Mrs. J. G. Sugden and Mr. and Mrs. Hegler and family, Edmonton.
Mr. and Mrs. Palmer and family, and Miss Shepard, Calgary.
Mr. and Mrs. C. W. McMillan and family, Calgary.
Mr. and Mrs. A. E. May and family, Harold Dean, Edmonton.
Mr. and Mrs. A. T. Mode and family of Wetaskiwin, J. W. Summers, Calgary, and Mrs. Grant, Strathcona.
Mrs. Fraser and family of Edmonton, Miss Wild, Wetaskiwin.
Mrs. Richardson and family of Edmonton.
Mrs. G. W. Swainland, Mrs. W. H. Nightingale, and Mr. and Mrs. E. O. Emery and family, Edmonton.
Rev. and Mrs. Thos. Powell and family, Lacombe, and Mrs. Tryon, Saskatoon.
Mr. and Mrs. D. O. Ebersole and family.
Mr. D. E. Black and children of Calgary.
Mrs. F. D. Sinclair and family, Calgary.
Miss Brown, Calgary.
Mrs. J. A. Smith and daughter, Calgary.
Mr. and Mrs. B. S. Cameron and son, and Miss Gertrude Sharpe, Lacombe.
Miss C. Finlayson, Strathcona.
Rev. and Mrs. C. D. Campbell and family, Edmonton.
Mr. and Mrs. G. Gilmer and family, Edmonton.
Mr. and Mrs. W. A. Giddes and family, Calgary.
Rev. A. Fletcher, Okotoks.
Miss Shibley, St. Hilda's College, Calgary.
Mr. and Mrs. J. St. Clair Black and family, Edmonton.
Mr. and Mrs. A. W. Challand, Edmonton.
Miss N. Mercer, Edmonton.
Miss Helen Montgomery, Edmonton.
Mr. H. Gilbert and Miss Gilbert, Edmonton.
Mrs. Thos. and son, Edmonton.
Mr. and Mrs. John McKenty and family, Lacombe.
Mr. and Mrs. H. J. Dawson and family and Misses Foran, Edmonton, and Mr. H. D. Davison, Bridgewater, N. B.
Mr. and Mrs. W. Landsey, and Mrs. Levinge and son, Australia, and Mrs. Robt. Jones, Edmonton.
Mr. and Mrs. W. F. Graham and family, Mrs. Graham and Miss Ballard, Lacombe.
Rev. and Mrs. McQueen and family, Edmonton.
Mr. and Mrs. W. J. Johnston and family, and Miss Harriette Boyce, Lacombe.
Mr. and Mrs. Cope and family, Edmonton.
Mrs. Berford and family, and Miss Lynch, Edmonton.
Mr. and Mrs. Geo. Colby and daughters, and Mr. and Mrs. Chas. Epton, Wetaskiwin.
Mr. and Mrs. Jesse Fraser and family, Lacombe.
Mr. and Mrs. Philip McLeay and family, Irwin.
Miss Wilson, Medicine Hat.
Mr. and Mrs. J. A. Hallies and children, Edmonton.
Mrs. H. Newton and family, Edmonton.
Dr. and Mrs. Simpson and family, Lacombe.
Mr. and Mrs. G. Armstrong and family, Edmonton.

Dr. Gilmore and Mrs. Gilmore, Harry Tarr and Jack Bentley, Lacombe.

Dr. and Mrs. Hynes, Lacombe.
Mr. and Mrs. Smith, Edmonton.
Mrs. McLean and family, Edmonton.

Mrs. Stedholme and family, Edmonton.

Mrs. Sneyd and family, Calgary.
Mrs. Powley and family, Edmonton.

Mr. and Mrs. G. A. Reid and family, Edmonton.

Rev. and Mrs. Patterson, Edmonton.

Mrs. H. A. Day and family, Lacombe.

Mr. and Mrs. Walker, Edmonton.

Mrs. P. H. Winter and family, Lacombe.

Mrs. E. J. Tetz and family, Mrs. Jamieson, Lacombe.

Mrs. Bradley, Calgary.
Mrs. Blair, Calgary.

Mrs. Fortuna, Lacombe.
Mrs. D. C. Gourlay and family, Lacombe.

Mrs. Belcher and the Misses Belcher, Edmonton.

Mr. and Mrs. Nesbit, Edmonton.
Mrs. D. C. Cameron and family, Lacombe.

Mrs. Urquhart and daughter, Lacombe.

Mr. and Mrs. Sheppard and family, Strathcona.

Mr. and Mrs. Wallace and family, Strathcona.

Mrs. P. Talbot and daughters, Lacombe.

Mr. and Mrs. B. Lawton and family, Edmonton.

Judge and Mrs. Stewart and family, Calgary.

Mrs. W. F. Puffer and family, Lacombe.

Mrs. Bowen, Bow Island.
Mr. and Mrs. C. T. Jones, Calgary.

Mr. and Mrs. Broadfoot and family, Calgary.

Mrs. T. C. Engle, Edmonton.
Mrs. Heathcote and family, Edmonton.

Mrs. Putland, Bentley.
Mrs. Thorp and family, Bentley.

Mrs. Halpin and family, Lacombe.

Besides the above mentioned, scores of others are camped at various points along the lake.

A few visitors at the hotel for the week end were: Miss Richardson, Edmonton; C. H. Grant, Strathcona; P. B. McNelly, R. W. Jones, Edmonton; F. McPhail, Calgary; W. H. Harbeck, Seattle; C. R. Dixon, Calgary; E. Greig, Calgary; M. Avery, Vancouver; Messrs. O. M. and D. S. Smith, Everts.

A few town visitors over Sunday were Misses Stella and Edna Mooney, Orpha Vickers, Mary Poole and Maud Bidleman, Messrs. Jack Young, A. W. Stewart, Jas. Campbell, S. Edwards, and Ed. Schnitzler.

Property is increasing at a very rapid rate along the south end of the lake, and several new subdivisions are being put on the market.

Carruthers--Boyd.

A pretty wedding was solemnized at the residence of Mrs. Boyd, Hamilton Avenue, this morning at 10 o'clock, when her daughter Lydia was united in marriage to Mr. N. E. Carruthers, principal of the Lacombe Public School. The ceremony was performed by the Rev. Thomas Powell, in the presence of the immediate friends and relatives of the contracting parties. Mr. and Mrs. Carruthers left on the north bound train for Edmonton. On returning to Lacombe they will take up their residence in the Pennock cottage on Barnett Avenue. They were the recipients of numerous costly tokens of esteem from their many friends in Lacombe.

Belcher--Mooney.

This afternoon at 3.30, the marriage of A. Belcher, manager of the Merchants Bank, and Miss A. Mooney, daughter of Mayor W. S. and Mrs. Mooney, will take place in the Presbyterian Church.

Canada's Fiscal Freedom.

Mr. Fielding took occasion at the recent Dominion Day dinner in London to make it plain that the recent commercial arrangements made by Canada in no way limit the freedom of the Dominion. The newspapers report Mr. Fielding in these terms: "Mr. Fielding said that he found an impression was widespread in Britain that, in making these ar-

rangements, they had interfered in some way with the liberty of the Dominion to deal with the Motherland as they might desire. That was an error which he wished to correct. In every one of the arrangements which had been made there was a desire to encourage Canadian trade, but in no one of them was there a line or a word which interfered with the right of Canada and the Mother Country to make a preferential arrangement whenever they should desire to do so. Whether such a preferential arrangement was desirable was forbidden ground, and it was not right that it should enter upon it. He did not think they in Canada could do useful service in instructing the Motherland to manage her own business. All he desired to say was that if at any time the people of the Mother Country made up their minds that they wanted a preferential arrangement with Canada, there was nothing in any one of the arrangements to which he had referred to interfere with their liberty of action. They would probably have negotiations with other countries; but whether with the United States or European nations, they might depend upon it that Canada would stand up for the principle, which she had helped to establish, that the commercial arrangements between the Mother Country and the Colonies were a part of their own domestic family affairs with which no foreign nation had a right to meddle."

Mr. and Mrs. C. S. Pingle and son of Medicine Hat, are visiting with Mr. and Mrs. Jesse Fraser, at Gull Lake for a few weeks.

Mr. L. B. Miller left for Banff yesterday for a week's holiday. A. D. Murphy is acting constable.

60,000,000 bushels of wheat in Saskatchewan this year is the estimate given by the provincial minister of agriculture, Hon. W. R. Motherwell.

Blacksmith Business for Sale

A full set of Blacksmith and woodworkers tools, and first class business. Apply to H. W. Birch, Bentley, Alta., 15 miles west of Lacombe.

Snaps at the Second Hand Store.

Now is the time to get your shot guns at a great bunch of them at a bankrupt sale. Good double barrel shot guns, new, \$10.00 and up.

One good refrigerator at a snap.

New extension dining table \$9.00.

2 cream separators, good repair, \$20.00.

Trunks \$2.50 up.

O. BOODE, next to Union Bank.

Sir Wilfrid Laurier, speaking at Brandon last Monday, said that Canada was prepared to discuss terms of reciprocity with the United States; but nothing must be done to impair the British preference or the right of the Dominion of Canada to enter into arrangements with the Motherland.

This may be taken to be the fixed policy of the Dominion Government. It should tend to quiet the nerves of the British alarmists, who—chiefly for political effect at home—have interpreted these arrangements by Canada as steps at the project of an Imperial trade arrangement, due to displeasure at Great Britain's dilatoriness in responding to the proposal.

There are also some worthy folks here at home who see in the reciprocity overtures from Washington a deep-laid plot to tie Canada to an agreement with the United States which would make impossible a more extended preferential arrangement with the Motherland.

Canada may make commercial arrangements with the United States or with other countries, just as she has already made trade treaties with Germany and with France; but they will not affect in the least the right of the Dominion to enter into any tariff arrangements with Great Britain and with other British nations that may be held to be in the interests of the Empire.

Canada may make commercial arrangements with the United States or with other countries, just as she has already made trade treaties with Germany and with France; but they will not affect in the least the right of the Dominion to enter into any tariff arrangements with Great Britain and with other British nations that may be held to be in the interests of the Empire.

Mr. and Mrs. P. L. Talbot were visitors over Sunday with Mr. and Mrs. B. B. Cameron.

Roses, July 25.—One hundred as the result of a hurricane which swept northern Italy. The damage is five million dollars. The towers of Sarosino, Solero and Lomede, were struck.

The work of reading the papers of the recent provincial schools examinations is going steadily forward at Edmonton and it will be probably another ten days before the results are ready to be made public. This week the board of examiners has been increased and about thirty instructors are now engaged in reading the voluminous pile of educational test material.

Last year the papers were all read in fifteen days, but the statement of the presiding examiner is that this year it will require at least twenty-two days to complete the task.

The Bishop of London, Eng., sails for Canada on Aug. 12.

Two men were killed by the explosion of dynamite yesterday on the National Transcontinental Railway construction, 125 miles west of La Tuque, Quebec. A man attempted to open a tin of powder with an axe when the explosion occurred, leading in a second to a quantity of dynamite near which fifteen men were working. Two men were instantly killed and eight others—subsequently died in the camp hospital.

Word has been received that Sir Wilfrid Laurier, Premier of Canada, and party, now touring Western Canada, will stop over in Lacombe on August 10th. Arrangements are now being made to tender the premier a fitting welcome. Next week we will be able to publish full particulars, and in the meantime we would ask our readers to remember the date—August 10, 1910.

Earl Grey leaves to-day on his trip to Hudson's Bay. He will travel to Winnipeg via the Great Lakes.

"A Good School"

Five years ago it opened in Edmonton. By sheer merit it has risen to a foremost place. Over 250 students enrolled last year. Always specializing in the preparation of GOOD stenographers. It stands today as Alberta's Greatest Short-hand School. Its work along this special line has been remarkably successful. Its graduates find ready employment.

WRITE TO-DAY.

GRAND TRUNK
BUSINESS COLLEGE
EDMONTON

J. C. McAVISH, Principal

EXCURSION TO LACOMBE

It is anticipated that a great many Agriculturists and Grain Growers will be here on Friday, July 29th to review the splendid work of our Dominion Experimental Farm. Each year illustrates the farmer and grain-grower unlimited knowledge, which if not acquired through attendance at the farm, oftentimes costs much expense.

Experimental farms in this country are under government supervision, and are for the purpose of teaching the soil workers the best methods and the most profitable ways to work the ground. Not in the sense that one man "works" another, for such a thing as defrauding the soil is quite an impossibility, but to give the ground the proper cultivation to grow the most successful crop, and a continuation of same from year to year.

The Lacombe Experimental Farm has many lessons and much instruction to give the grain-growers and agriculturists of this province. If they will come and learn, there are quite a number of acres devoted exclusively to plot experiments of all kinds of grain, and there will be guides on the farm to explain everything in connection with the work.

This is a golden opportunity for the farmer to take a few object lessons and to have his knotty problems threshed out to his satisfaction.

Many of the foremost farmers of the province will be here to exchange ideas and give ready information to anyone desiring it, and in every way it should prove beneficial to everyone.

AUCTION SALE

Under instructions from Mr. HARVEY JONES
I will sell by Auction on the Premises S.E.
Qr. Sec. 16-39-26--CANYON, the following
property, on

Tuesday, AUG. 9

At 1 o'clock, sharp

HORSES, 6 head

Mare, 5 years old, in foal; Gelding, 3 years old; Gelding, 4 years old; Gelding, 8 years old; Saddle Pony; Yearling Colt.

S. W. PAISLEY, Auctioneer
H. JONES, Proprietor

Of General Interest

The Government Stationery Dept. scandal at Ottawa has had a sad development in the suicide of Gouldthrie, the superintendent of the Department who had asphyxiated. We have had not a few occasions to doubt if we have much the best of our neighbors in purity of administration and at least it should make us look to our affairs a little closer.

One thing that strikes us in these embellishment and breach of trust cases is the fatuity of the thing. It always comes out, and in this case, as in many others, it means loss of everything, even life itself to gratify a momentary, short-lived pleasure. Gouldthrie had a good post, a good salary, an honored position and he gambled it away and lost, as every moral gambler does sooner or later. The old fashioned dictum that honesty is the best policy is not as far out after all.

Business men receive some curious letters from customers and the following said to have been received by a Montreal firm from a French Canadian customer, is pretty good.

Dear Sirs:—I received de stove which I by from you elrite. But for why don't you send me no feet. Wat is de use of de stove when he don't have no feet. I am loose to me my customer sure ting by not having de feet, and date not very pleasure for me. Wat is de matter wit you. Is not my trades money as good like anoder mans. You lose me my trade and I tell you dat you are a blem fool and no good. I send you back at wunce your stove for morrie for sure, because you are such a dam foolish peoples. Yours respectfoles,

John La Fleur.

P.S. Since I rite de letter I find de feet in de hoven. Excuse me to me.

"Jerusalem as a city is compactly built together," sings the Hymn. This has its drawbacks too, for the British Consulate is the equal and fifth and overcrowding are causing epidemic of diverse diseases. The slum problem is not confined to any clime or people and always tells the same tale.

Many and various are the rules of food and conduct laid down for those who would live long and not many of them are attractive to the ordinary man who usually prefers to live a little easy and take chances for the rest. The recipe given by a New York Centenary will probably find many admirers. He advises all who wish to live long should drink plenty of good wine, beer and whiskey, not to think too much and to smoke as much as he pleases. It sounds pleasant medicine.

There are few Canadian lovers of music and good singing who have not heard our popular tenor, Mr. Harold Jarvis. His name has been a household word in musical circles for a good many years, and he made hosts of friends. To such it will be matter for sincere regret to hear that he has met with a great grief in the loss of his only child, a fine promising lad of 16. He had shown remarkable musical ability and was pursuing his studies in Germany where he was already favorably known as a pianist. He contracted a rather uncommon and painful internal malady that carried him off in 7 months' illness and it can well be understood that it has been a heavy blow to Mr. and Mrs. Jarvis.

An American exchange has an article on the destructive work of rats and estimates the loss to the farmers of millions of dollars annually. They follow the grain all through its life. Starting with the seed sown in the ground, they are ready for green feed as soon as it sprouts. They attack it in the ear and they camp in the sheaves. From the granary to the mills, the cars, the ships, the persistent little rodent keeps levying toll and never lets up. In the West we are still free from that pest but for how long who can say as he is a great traveller. Meantime the ubiquitous little gopher and ground squirrel does pretty well and this year seems to see them more numerous than ever. To deal with this properly requires concerted action. It is no use for one farmer to get after the gophers when they are allowed free scope on the other side of his

fence. It has been estimated that every gopher represents a loss of 1 bushel of grain and it can readily be believed. The remedy suggested for the American rat plague and already being successfully adopted is to inoculate them with a violent disease and let them loose to carry the infection among their fellows. In this way much good work has been done in some States. This would be a good work for the Grain Growers' Association and Farmers Unions to take up.

The British papers report what is almost a meat famine in that country and prices have soared so high that the working classes are unable to purchase to any extent. In many of the big cities retail shops are being shut up for the summer months, as trade does not pay expenses. There are many reasons given for the situation but the only fact that is undisputed and clear is that shipments from the U. S. have fallen off enormously, and the restrictions on the Argentine trade also tend the same way. It is all right for the British producer, but it is asserted that many farmers there who used to raise beef are now going in for milk and its products. If the Government could get that chilled meat proposition going it would help not only our stockmen, but enable the workers of Britain to obtain a beef steak at a price within their reach. It looks as if that embargo must go.

Washington, D. C.—The total number of casualties to persons on the railways for the year ending June 30, 1909, was 104,348, of whom 8,722 persons were killed and 95,626 injured, according to an announcement of the interstate commerce commission.

More than 4,500,000 ice cream cones have been seized by the United States as a part of the campaign being waged by the government under the pure food act.

Fourteen million American Catholics, members of the Catholic Federation of the United States, have sent a respectful but earnest protest to King George pointing out that part of the accession oath which the King takes is insulting to Catholics.

London, Eng.—Jack Johnson is to fight Sam Langford or Tommy Burns here in September, according to authoritative statements.

The minister of militia, Sir Frederick Borden, is now in communication with the Imperial war office relative to the selection of an Imperial officer to take the place of Major General Sir Percy Lake on the latter's return to England in September next.

Earl Grey will start from Ottawa on his Hudson Bay trip on August 2, and according to the present schedule expects to reach Fort Churchill on August 16.

Confidence in the great agricultural resources of Central Alberta has this season been fully justified and even enhanced. Notwithstanding the fact that during the early summer there was a shortage of rainfall, as elsewhere, throughout Western Canada and a considerable portion of the United States, the success of the growing crop was never in serious doubt. There was ample reserve moisture in the ground, and crops and pastures maintained a vigorous, healthy growth. The copious rains, which have occurred since the middle of June, have developed favorable crop conditions.

The arrival of 300 settlers from Ontario in charge of the publicity agent of that province is an event of more than passing importance. Although this country has been partly peopled by eastern Canadian farmers there has never been the organized and extensive movement from that part of the dominion to this that we would like to see. Alberta does not necessarily want to rob Ontario of population, but there is no doubt that this country offers agricultural advantages which are useful to many living in the older portions of the dominion. And these advantages have not been so readily realized by our own people in eastern Canada as by the people of the United States. The settlers who are now under the care of F. W. Brown are apparently the very best type of immigrant that a country could ask for. It is pleasing to know that neither those nor any other settlers appear to have been deterred in the slightest by the dry season and consequent

shortage of crop. They no doubt realize that the same condition prevails practically everywhere this summer. We hope that our Ontario cousins will be heartily received and welcomed in whatever part of the province they may decide to locate, and that they will find in this, the most favored portion of Canada, happy and contented homes, good health and material prosperity.

Oxford, Cambridge, and London Universities are inviting representatives of several universities of the empire to join them in a conference in London in 1912.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all Dealers.

Fabian Vanaase, the veterinary and journalist, who accompanies the Bernier expedition, has been appointed census enumerator for the arctic regions.

An invitation has been tendered Theo. Roosevelt to attend the Dominion Exhibition to be held at St. John, N. B., in September. The ex-president has declined from attending.

The execution of William Oscar King for the murder of Joseph Hindahl did not take place on Thursday last according to the sentence. The reason is that the Federal cabinet, which reviews all cases of capital punishment, has not met since sentence was passed as Sir Wilfrid Laurier and other members of the cabinet have been absent from Ottawa.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then cauter oil to cleanse the system. It is safe and sure. Sold by all Dealers.

At Biggar, Sask., on Tuesday last two work trains on the Pease and Nevershot branch of the C.P.R. collided, one locomotive and its tender rolling down a 80 foot bank and turning over twice in the fall. The crews jumped without receiving injuries.

Almost the whole Southern Alberta wool clip is this year being shipped on consignment to a Glasgow, Scotland, firm by the South Alberta Wool Growers' Association.

E. Duncan Harrison of Lethbridge an ex-mounted policeman, and a former employee as a clerk in a law office was committed for trial on two charges last Thursday, one of attempting to commit suicide by taking strychnine and the other of issuing worthless cheques with intent to defraud.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by all Dealers.

Albert Hobbs, of Medicine Hat, who shot and killed Walter Turner on Saturday last through foolishly pointing a loaded pistol at him, has been committed for trial by Magistrate Keely on a charge of manslaughter.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Fee \$3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres estate. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00. W. W. CORRY, Deputy of the Minister of the Interior. No advertisement published of this advertisement will not be paid for.

ALIX

There is general feeling of sympathy extended to Mr. and Mrs. Thos. Somerville on account of the death of their little son Jack. He was taken with scarlet fever and only lasted a few days. He was a bright clever little fellow and the only child, which makes it doubly hard.

Work is progressing on the new Union Bank building in good shape. D. A. McDowell's cottage is also looking up and will be a fine residence, when complete. Captain Baker-Carr has the contractors working on his farm as he was unable to get local men.

Mr. Snyder was through this district last week purchasing the right of way for the O.N.E. The price paid near Alix was \$35.00 per acre. He says grading will start at once. This is creating quite a movement in village property. We have no boom but a lot of stuff is being sold.

Miss McNeil of Edmonton is visiting with the Misses Anderson at this place.

Buffalo lake is becoming quite a summer resort, sail boats and motor boats are flying around. It certainly is a beautiful sheet of water, dotted with picturesque islands and will sure get the crowds when the lake is complete between Edmonton and Calgary.

The sheriff from Wetaskiwin was scouring the country last week looking for some highwaymen. The sheriff travelled by auto and his victims were riding with Mr. Tate when they looked around and saw an auto coming and both jumped and made their get-away in the willow brush and have not been captured at this writing.

McDonnell & Cruikshank sold the A. J. Sundberg farm to Mr. Thos. Sample from Scotland. This is a fine farm 7 miles out on the banks of the Red Deer river. The purchase price was \$20.00 per acre. Oats are worth 35 cents at the elevator, that is if you are selling. If you wish to buy they will let you have them for 50 cents. Nice

margin, but they need the money. Crops are good in this district. Never were better and prices will be good. Mr. Farmer is getting his this year.

Blackfalds News.

Crops are looking fine in this district.

The Misses Carrie and Ida Ryan are visiting friends in Edmonton this week.

It has been very warm here the last week. Old timers say it has been the hottest summer for 6 or 7 years.

Miss M. Hill is spending part of her holidays with friends in Calgary.

Wild hay is scarce in this district.

Mrs. N. Shular is disposing of her household goods this month. After that she will join her husband in B. C.

Miss Kitty Gunn is visiting at Olive this week.

The baseball boys and citizens held a meeting at the Imperial Hotel last Tuesday night. About forty were present and the following officers were elected: Pres. L. A. Hill; vice pres. Herb La Blance; manager, Mr. Gracie; secretary, Al. Sorenson; mascot, Teddy Shelby. The team is on a better footing now, and are prepared to put out a better line of goods than any time before. Teams wishing to have match games with Blackfalds will please notify the manager, Herb Gracie, who will give the correspondence prompt attention.

Red Deer News.

Sir Wilfrid Laurier will be here on August 11th.

Better support of the base ball team is solicited through the columns of the "Advocate."

The wedding of Miss Grace Johnson, Canyon, to Mr. Sylvester Adams, of Lacombe, took place on Saturday last. Rev. W. G. Brown officiated.

In the case of the Town of Red Deer vs. The Western General Electric Company, for cancellation of franchise owing to the Com-

pany's refusal to instal phones without an individual contract with the subscriber, Judge Beck dismissed the action without costs.

Count Rose-Orlous who had been sent to Calgary on the grounds of insanity and returned to town attempted to commit suicide by drowning in the river and has again been placed in custody.

The crops are looking well and the outlook is as good here as it is in any part of the province.

A petition has been largely signed asking the town to buy the rink lots at cost for rink.

Make Hay While the Sun Shines.

The problem confronting every farmer and stockman in Alberta this year is that of providing roughage for the coming winter. Hay will not only be high but very high. The timothy crop is light; straw of all kinds with the exception of winter wheat is short. Every market that had to be supplied from Alberta in the past will look to Alberta again this year for feed. Besides this, other points which have produced enough to supply their own needs in previous years, or had feed to export will import largely during 1910 and 1911; those sections which have been favored with rain can do much to supply them and it behooves the farmers of those sections to do their utmost to that end, and by so doing they will be well paid for their efforts.

Every acre of grass land that can be mowed should be mowed. In driving through the country we see numerous places in which half a day's brushing will enable one to secure a ton or more of hay. There is no kind of farm work that will pay better this year than brushing out those places.

An acre of early sown rye and used as a pasture will easily take the place of a ton of hay during the late fall and spring months and every farmer should sow at least a few acres.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisonous matter, cleanse the system, cure constipation and sick headache. Sold by all Dealers.

Albertan Owns Up.

That hay will be extremely dear this season, averaging somewhere round \$20 per ton, is the belief of Commissioner Graves, who returned from a trip up north this week. Mr. Graves says this is a good authority, one of the experts he spoke to being Mr. Stauffer, M. P. for Didsbury.

"I could not help but be struck by the freshness of the northern country," declared Mr. Graves, to the Albertan.

"It made one feel like a boy again to get among the greenness and the perfume of the flowers. There was no doubt that the country for sixty miles north was at a terrible disadvantage as regards spring wheat, compared with the promise of the more northern crops, but I noticed that the fall wheat was keeping up well."

"The dry season is sure to divert emigration temporarily from this part of the country, but it cannot injure us for any length of time. The fall crops will be good, I think."

The entire holdings of the Pacific Coal Mine Co., Ltd., on Vancouver island, have been purchased by the C. P. R. for \$4,000,000. John Arbuthnot, president of the company, is now en route to Montreal to complete the deal. The option upon the company's holdings was taken some few months ago shortly after the announcement of purchase of Dunsuir interests by the C. N. R.

The Administrator's Sale of the Muncester farm was well attended on Saturday last. Mr. John Rathje was the successful bidder, the 240 acres becoming his property at the handsome figure of \$4,500 cash.

Captain Desborough, whom the British government has loaned to Canada, to examine and report upon the explosives factories in this country and to assist in the framing of the proposed Explosives Act, arrived in Ottawa last Friday.

Hon. Frank Oliver, minister of the interior, has reached Dawson on his eight-thousand-mile tour of the wilds of Northern Canada.

"Here's a nickel," said a thrifty housewife to a tramp at her door. "Now, what are you going to do with it?"

"Well, mum," replied the hungry man, "if I buy a touring car I shan't have enough left to pay my chauffeur; if I purchase a steam yacht there won't be enough left to defray the cost of manning her; so I guess, mum, I'll get a schooner and handle it myself."

Mr. and Mrs. A. H. Halliday, of Field, B. C., are spending a week with Mrs. Halliday's sister, Mrs. R. O. Webster.

Oil is King

THE PARAFINE OIL CO.

Incorporated under the laws of Arizona—Capital Stock of 1,000,000 shares of the par value of \$1.00 per share—whose stock is non-assessable—fully paid up—and no personal liability attached to it—has purchased 320 acres of oil land in the San Juan Valley in the southeast corner of Utah.

This is an entirely new oil field, only very recently known and offers the very best opportunity for investment in oil stock.

I have obtained an option for a short time on a portion of the stock which I am placing on the market at 15c per share, payable in 3 equal payments, 1 cash, 1 in 1 month and balance in 2 months.

After having visited the greater part of the oil fields of California, my advice to my friends and the public is to buy as much of this stock as you can and to do it quick. When I state that the wells in this San Juan oil field (there are now 32 wells drilled) all have oil producing up to 500 barrels per day and none deeper than 1000 feet and that the oil is so rich and of such a high gravity that it can be used by an auto without being refined and that it is worth from \$2.50 to \$3.00 per barrel, and further, that a well can be drilled on every 2 acres. Those who look into this proposition carefully, will see the wonderful possibilities for investment in this new oil field of San Juan.

For further particulars call at my office.
A. HUME,
Stock Broker.
